The Fund will seek to achieve its investment objective by investing in a diversified portfolio of companies which shall primarily consist of small UK quoted companies. Small companies are those having a market capitalisation, at the time of purchase, equal to or lower than the largest company in the Numis Smaller Companies Index (including AIM but excluding investment companies).

The Manager actively manages the portfolio in order to achieve the objective and will not be restricted in respect of investments by industrial sectors.

In addition to equities, the asset classes in which the Fund may invest includes transferable securities, units in collective investment schemes, money-market instruments, cash and near cash and deposits

The Fund will not invest in any immovable property or tangible movable property. The Fund may hold derivatives for efficient portfolio management purposes. It is not intended that the use of derivatives for efficient portfolio management purposes will increase the risk profile of the Sub-Fund. The Fund's base currency is Pounds Sterling.

If you hold income shares any income from the Fund may be paid out to you. If you hold accumulation shares, any income from the Fund will be re-invested to grow the value of your investment. You can buy and sell shares on any business day.

As indicated above, the Fund aims to achieve a total return over the longer term. Nevertheless capital is in fact at risk and there is no guarantee that a total return will be achieved over that specific, or any, time period.
